

Bring Seamless Efficiency

Keep your productivity flowing with the TASKalfa MZ4000i series.

TASKalfa MZ4000i / MZ3200i

**Monochrome Multifunction Product
for A4/A3 Format**

Born to be Extraordinary.

- Broad Range of Multifunction Devices and Printers
- Optimized Total Cost of Ownership (TCO)
- Reliable with Long Life Drum and Parts
- New and Advanced Technology

KYOCERA Document Solutions strives to be a company that contributes to the society and demonstrates a "Customer First" principle by providing customers with maximum value to increase their satisfaction. By adhering to the mission of producing document management devices that take balance between "Economy" and "Ecology", KYOCERA Document Solutions succeeds in developing document management devices with advanced technologies which help customers to optimize office productivity and efficiency at a low total cost of ownership and, at the same time, improving environmental performance.

Level Up Your Productivity

To drive your productivity, two key areas must be addressed: Optimized printer performance and downtime. **The TASKalfa MZ4000i series does both.** With the high print speed and Kyocera's reputation of highly reliable products, the TASKalfa MZ4000i series delivers exceptional quality without the wait.

Enhanced features for high productivity

Performance Upgrades

Featuring document processor that provides the fastest scanning speed of 200 sheets per minute at 300dpi, with the largest paper capacity of 320 sheets. Additionally, the document processor DP-7170 equipped with sensors that detects multiple paper feeds and staples, preventing scanning failures and protecting documents from damage.

Tilt correction

When scanning thick documents with a two-page spread such as books on the platen with open DP or Platen cover, it will auto detect and correct tilted page.

Auto detect tilt when scanning

Tilt correction

Set up of "Scan to Folder"

To send images scanned by the MFP to a folder on the PC via SMB, it is necessary to make complicated settings on the MFP and PC. Using this tool, you can easily set folder sharing settings and register in the MFP's address book by following the wizard, and setup can be completed smoothly.

Multiple cropping

This can make multiple receipts or business cards to digital data efficiently by scanning simultaneously, and saving them as individual files.

Scan up to 16 sheets at once

Autosave by page or file

Fault Isolation Function

When a failure occurs in the device, only functions related to the failure are disabled, meaning other functions can be used after restarting, thus reducing user downtime.

Working Smarter With Technology

Incorporating the latest technology, the devices provide a solution that will drive productivity by helping companies work smarter to produce higher quality results in less time than ever before.

Redefining Usability with tablet-like user interface

The TASKalfa MZ4000i series combines a simple, slick and fresh design with gesture-based operations, offering a fast and simple access to a wide range of document management functions with its new UI on a 10.1-inch resistive full-color touch panel. With minimized hardware keys, users can enjoy a seamless transition between the user interfaces while using the tablet-like display.

Handwriting recognition with artificial intelligence

With our latest AI technology, the TASKalfa MZ4000i series enables users to emphasize or overwrite the handwritten parts of a document without changing the format or image when scanning, making it easier to add better emphasis or highlight handwritten notes on a document, or to remove them altogether.

Touch-less ID card print

Print documents with just a touch of a card. On the TASKalfa MZ4000i series, printing can be started simply by holding IC cards over the device without touching the operation panel.

**Optional IC card authentication kit is required.*

Secure Your Business

Cyberthreats soar during periods of disruption.

With the TASKalfa MZ4000i series, you don't have to run the risk. Security starts from the ground up and Kyocera ensures your data, your device and your network are always protected.

Secure/Multipurpose Internet Mail Extensions (S/MIME)

Improves the security of email encryption by providing security for authentication, message integrity, the use of digital signatures and privacy and data security.

Simple Certificate Enrollment Protocol (SCEP)

Automatically ensures that the device has the latest security certificates and makes the issuing of digital certificates as effortless as possible.

Online Certificate Status Protocol/Certificate Revocation (OCSP/CRL)

Provides settings that can verify the validity of the certificates used in encrypted communications.

Security Information and Event Management (SIEM)

Provides the ability to log security events that help monitor potential unauthorized operations like malware, intrusions and information leakage.

TLS version 1.3 support

A faster, safer and more secure method of cryptography that encrypts data by providing secure communication between web browsers and servers.

Kyocera has been accredited with ISO 27001 certification, recognizing its commitment to the highest standards of information security management across the business.

Options

A *Installation of either a document processor or a platen cover is required.

+ DOCUMENT PROCESSOR

DP-7140

Low speed type document processor for max. 50 sheets.

DP-7150

High speed type document processor for max. 140 sheets

DP-7160

Duplex scanning and copying for up to 320 sheets.

DP-7170

Duplex scanning and copying for up to 320 sheets with multi feed detection and staple detection.

+ PLATEN COVER

Platen Cover Type(E)

Platen cover to secure originals on the platen glass.

B

+ FINISHER ATTACHMENT KIT

AK-740

Required when configuring with a finisher.

C

+ NUMERIC KEYPAD

NK-7120

External numeric keypad with start, stop and reset controls.

D

+ FINISHER

DF-7120

1000-sheet finisher. Supports shift-sorting and stapling, with optional punch unit.

DF-791

Stacking up to 3,000 sheets. Supports 2-tray sorting, shift-sorting and stapling, with optional punch unit and booklet folder.

MT-730(B)

Mailbox for DF-791.

PH-7C

Punch unit for DF-7120/DF-791.

E

+ PAPER FEEDER

PF-791

Double 500-sheet paper feeder.

PF-810

1,500 sheets x 2 rows paper feeders set.

+ INTERFACE

IB-37

An expansion option that supports Wi-Fi (5GHz / 2.4GHz) and enables high-speed wireless LAN communication. Complies with wireless standard of IEEE802.11a/b/g/n/ac, and allows use of infrastructure mode and Wi-Fi Direct at the same time.

IB-50

Expansion option for Network Connection Port (NIC). Enable connections of two LANs at one time.

+ OTHER OPTIONS

Fax System 12

For sending and receiving faxes. (Support maximum installation of 2 units)

Internet FAX Kit (A)

Supports fax function over the internet.
* The optional fax system is required separately.

Scan Extension kit (A)

Extended option for OCR scanning. Enables output of scanned documents into text searchable PDF, or further converting into Word, Excel, and PowerPoint formats.

HD-15 / HD-16

Expand HDD memory capacity to 320GB or 1TB, more documents, and PDF files with larger file size can be printed directly.

Card Authentication Kit

For access control with IC card authentication.
* A separate card reader is required.

IC Card Reader

IC card reader for identity authentication.
* A separate IC card authentication kit is required.
